FEEDING GUIDELINES:

Divide the recommended portions into two meals per day. In addition to food, always make sure fresh water is available. Vitamins, minerals, and other supplements are not necessary. When switching foods, adjustment should be gradual. If a loose stool persists beyond three days, consult with Precept or your local veterinarian. Feeding amounts may vary by breed, activity level, temperament, and climate. Pregnant or nursing dogs may need food available at all times. Double the recommended feeding portion for puppies up to six months of age.
