FEEDING GUIDELINES:

Divide the recommended serving amount into two meals per day. In addition to food, always make sure fresh water is available. Vitamins, minerals, and other supplements are not necessary. When switching foods, adjustment should be gradual. If a loose stool persists beyond three days, consult with Precept or your local veterinarian. Feeding amounts may vary by breed, activity level, temperament, and climate. Do not feed to growing puppies, pregnant or lactating females, or hardworking dogs.
